FIN02

RFS Q3 2024

Built for high performance workloads

atNorth's FIN02 data center campus, located in Espoo, Finland will be a tier 3 designed high density data center facility. Leveraging Finland's cool climate, access to renewable energy, excellent connectivity and world leading security, the FIN02 site will be perfectly suited to accommodate your infrastructure needs.

Finland is a global tech leader and is at the forefront of digitalization and innovation. It is recognised as a preferred location for data centers as the country has one of the world's most reliable electricity supply infrastructures and offers access to an abundance of cost efficient sustainable green energy.

The data center will be strategically located within just 30 minutes from Helsinki Airport.

World-class security
5 layers of security

Renewable energy sources
Abundant green, cost efficient-energy

Excellent connectivity
Access to key network operators

High energy efficiency
Natural air cooling of IT infrastructure

- **RFS ready Q3 2024**
- Rack ready data halls
- Efficient free natural cooling
- Liquid cooling ready
- Renewable energy
- Carrier neutral
- 24/7/365 on-site security personnel

atNorth is a leading Pan-Nordic data center services company offering sustainable, cost-effective, and scalable co-location and high-performance computing services across Iceland, Sweden, Finland, and Denmark. The company operates seven data centers in strategic locations across the Nordics, with three further sites under construction.

With sustainability at its core, atNorth’s data centers are powered by energy from renewable sources and support circular economy principles. All atNorth sites leverage innovative design, power efficiency, and intelligent operations to provide long-term infrastructure and flexible colocation deployments.

atNorth is headquartered in Reykjavik, Iceland, and is trusted by industry-leading organizations to operate their most critical workloads. The business was founded in 2009 and acquired by Partners Group in 2022.
